**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I chose sonic because they offered reasonable internet speeds, at a reasonable price. They provide me with truly unlimited data (no caps or throttling) and their prices include no hidden fees. This is contrary to other ISPs that provide Internet to my area. I know this because salemen from other ISPs have tried to sell me internet but cannot compete with what Sonic has to offer me.

As a mechanical engineering student, fast internet speeds are critical to my education so that I may access my schools network easily, download files, and share files without having to wait for long upload/download times. Price is important and if Sonic can offer the prices they do then I dont see why others cant offer those prices or truly unlimited internet as well. Their customer service is the best Ive received from an ISP. Do not let AT&T stop others from competing simply because they themselves can not handle the competition.
